Lamina Massief

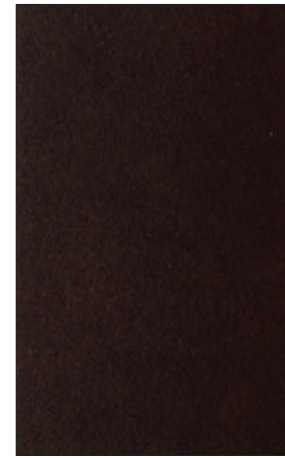

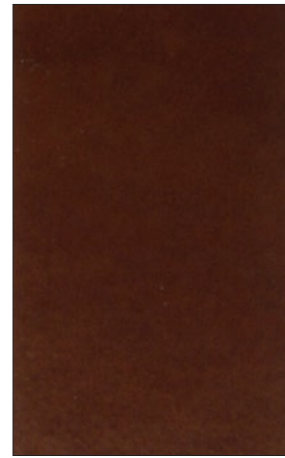

Colour Guide

Vivalda
bringing construction to life®

VIVALDA LAMINA MASSIEF

Vivalda Massief is a durable sheet material, especially designed for exterior cladding and finishings on buildings. This is suitable for new housing construction, commercial and industrial building as well as renovations. The panels are typically used for applications like facade, wall & balcony cladding; partitions, parapets, fascias, external ceilings, dormers, facade filling, roof and gutter edgings, awnings, bill boards etc...

MDE DARK NATURAL

COMPOSITION

A symmetrically laminated panel built up of thermo-hardened synthetic resins, consisting of a core made up of cellulose strips impregnated with a sealed outer layer, pressed to a homogenous durable facade cladding panel under high pressure and heat. The panels are coated on both sides with colour and structure.

AVAILABLE IN THE FOLLOWING SIZES:

| |
|------------------------|
| 2140 X 1060 |
| 2800 X 1300 |
| 4100 X 1300 |
| 2800 X 1850 |
| THICKNESS IN MM |
| 6 - 8 - 10 - 13 |

PROPERTIES

Vivalda Massief has a hard, dirt-repellent surface, the panels are self-supporting, wear-resistant, low maintenance, colourfast, weatherproof, corrosion proof, chemical proof, decorative, easy to work with and easy to attach.
