Structural panel adhesives

Vivalda offers a large and varied range of products from many different manufacturers for structural bonding adhesives. As an alternative to visible fixings you can specify adhesives when the designs call for sleek, sweeping lines.

Component parts for this method of fixing are:

Adhesive cartridges

Wood primers

Surface activators

Cleaner

Double sided tape

Application set

Vivalda's profiles are available to suit panels of all thicknesses.

All profiles and fixings are offered in any RAL or BS standard colour.

Profiles are stocked in both PVC and anodized aluminium.

These are a small selection of the most popular profiles with many further profiles available to suit most requirements. Vivalda can also manufacture made to measure colour matched aluminium flashings and sills.

Vivalda can also supply a range of aluminium fixing systems to offer a solution to the most demanding environment. These vary from rivet fix to secret fix accommodating cavity ranges from 20mm to 400mm.
